

BJUI

BJUI Knowledge

BJUI Knowledge is the e-learning platform for urologists and all those with an interest in urology practice, to support their ongoing education and deliver the best patient care.

-  455 e-learning modules covering every area of urology
-  Practice questions and CPD certificates for every module
-  Videos, Quick Checks, Bite-size modules, Short Courses, Podcasts
-  Practice question banks
-  Access any time, any place online or on the app
-  Developed by an international team of expert urologists
-  **FREE ACCESS** for urological trainees/residents

bjui.pub/knowledge

BJUI Knowledge is edited by a team of **clinically active international experts** and over 1,000 urologists have contributed to develop this invaluable educational resource. From trainees learning a topic for the first time right through to experienced consultants wanting to refresh and update their knowledge, there's **something for everyone**.

Modules explain subjects in clear language, presented in **short convenient sections**, and include recommended practice for diagnosis, medical/surgical procedures and follow-up care, the latest science and controversies. All content is **evidence-based**, fully referenced and peer reviewed, with regular updates as practice changes and develops.

Users can **test their knowledge** as they learn, with multiple choice questions throughout, culminating in an assessment with high quality single best answer questions. **Question banks** are also available to prepare of exams.
